**PETITION FOR REVIVAL OF AN APPLICATION FOR PATENT ABANDONED
UNINTENTIONALLY UNDER 37 C.F.R. § 1.137(b)**

Box DAC
Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

Applicant petitions for revival of the above-referenced application and encloses the appropriate fee therefor under 37 C.F.R. § 1.17(m), a Petition for Extension of Time and appropriate fee therefor under 37 C.F.R. § 1.17(c).

Nature of abandonment:

- ☒ The application was re-filed as a file wrapper continuation without payment of extension fees.

This petition is filed:

☒ within one year of the date of abandonment.

This application became abandoned because the failure to prosecute was an unintentional delay.

A file wrapper continuation:

☒ was filed on September 4, 1997.

The processing procedures have been carefully reviewed and steps have been taken to avoid repetition of the events that took place in this case so that a similar error will not be made in the future. This revival is solely to establish copendency between the parent application and the file wrapper continuation application filed September 4, 1997.

☒ A verified small entity statement was previously filed in this application on October 13, 1995.

☒ A check in the amount of \$1,135.00 is attached (37 C.F.R. §§ 1.17(m) and 1.17(c)).

The Assistant Commissioner is hereby authorized to charge any additional fees under 37 C.F.R. §§ 1.16 and 1.17 that may be required by this petition, or to credit any overpayment, to **Deposit Account No. 03-1952.** A duplicate copy of this petition is enclosed for that purpose.

☒ I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.
